

STRENGTH AND VALUE WITHOUT SACRIFICE

- State-of-the-Art Flat Panel Design
- Ideal Potable Water, Fire Water, Waste Water Storage
- Modular Panels are Easy and Economical to Ship Worldwide
- American Made AIS Compliant Steel
- Flexibility in Dimensions and Capacities
- Swift and Safe Field Installation
- Resistant to Corrosion and Abrasion
- Lower Maintenance Cost compared to Welded and Concrete

ECO-COAT-973®

Fusion Bond Epoxy Coated Bolted Storage Tanks

ECO-COAT-973®

Fusion Bond Epoxy Coated Bolted Storage Tanks

UIG **ECO-COAT-973** - As an economical solution for corrosion and chemical resistant storage needs, UIG's smooth wall epoxy coated bolted steel tanks provide leak tight storage of potable water, waste water, chemicals and dry bulk materials.

UIG tanks are built from premium grade carbon steel and are custom designed for your individual application. By utilizing a state-of-the-art overlapped-plate design, the smooth wall, flat panel bolted tank eliminates the leakage problems of the older flanged style tank designs. UIG bolted tanks are built to last.

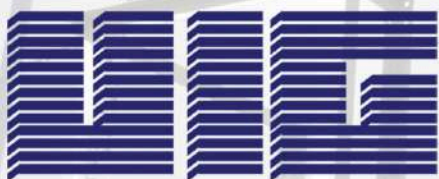

Our tanks have several roof options that include open top, epoxy lined decks, aluminum domes, fiberglass, plastic, flat roof and troughs.

United Industries Group also provides a wide variety of options and accessories, including mixers, heaters, insulation, platforms, stairs, and ladders.

UIG Bolted Tanks are engineered and tested to withstand wind conditions, snow loads, seismic loading and extreme temperature conditions, these tanks provide lower costs while still providing high strength and flexibility.

UIG high quality storage tanks meet or exceed a host of industry standards including AWWA D103, NFPA 22, NSF 61, BS and DIN.

Epoxy Coated Bolted Steel Tanks are the best choice for applications such as: Potable Water, Fire Water, Waste Water, Crude Oil, Refinery Distillates, Drilling Fluids and Muds, Brines, Ethanol and other Biofuels and more.
