

ELITESTORE™

STAINLESS STEEL BOLTED TANKS

Elite strength & durability for demanding applications

Since 1969, UIG Tank Systems has set the industry standard for engineered bolted storage solutions.

ELITESTORE™ tanks are crafted from premium-grade stainless steel for exceptional durability, corrosion resistance, and hygienic performance. Ideal for potable water, wastewater, food & beverage, and industrial applications, they provide long-term protection against rust, chemicals, and UV exposure.

Pair with an EVERDOME® Aluminum Dome Cover for a virtually maintenance-free system with a 50+ year lifespan.

ELITESTORE™

STAINLESS STEEL BOLTED TANKS

BENEFITS OF UIG **ELITESTORE™** STAINLESS-STEEL BOLTED TANKS

UNMATCHED QUALITY:

- **PREMIUM STAINLESS STEEL:** High-grade SS304/316 for superior corrosion resistance and strength.
- **HYGENIC DESIGN:** Naturally smooth, non-porous, and easy to clean - ideal for potable water, food & beverage, and high-purity applications.
- **FACTORY PRECISION:** CNC-cut openings ensure accuracy and professional fit.
- **RUGGED PERFORMANCE:** Built to resist rust, chemicals, abrasion, UV, and harsh weather.
- **PROVEN DURABILITY:** QA-tested to AWWA D103 standards for long service life.

VERSATILE & COST-EFFECTIVE:

- **FAST INSTALLATION:** Bolted design enables quick, efficient on-site assembly.
- **MINIMAL UPKEEP:** Stainless steel provides long service life with no recoating or relining.
- **SCALABLE DESIGN:** Modular construction allows easy expansion or relocation.

INDUSTRY EXPERTISE:

- **CERTIFIED ENGINEERING:** Licensed in all 50 states and Canada with PE-stamped designs and foundations.
- **STANDARDS COMPLIANCE:** Meets AWWA, API, NSF/ANSI 61, NFPA, IBC, and other major codes.
- **TRUSTED WORLDWIDE:** 55+ years of proven performance on thousands of installations.
