

EVERDOME®

ALUMINUM GEODESIC DOMES & RESERVOIR COVERS

Custom covers engineered to protect and built to last

UIG **EVERDOME®** aluminum domes and covers deliver durable, maintenance-free protection for tanks and reservoirs.

Built from commercial-grade aluminum, they're highly corrosion-resistant - no coatings or painting required. The self-supporting design suits bolted, welded, or concrete tanks, new or retrofit.

Available as clear-span domes or flat-panel roofs in any profile, **EVERDOME®** efficiently spans large distances for potable water, wastewater, process water, and odor control applications.

Pair with **EVERSTORE®** Glass-Fused-To-Steel, **ELITESTORE™** stainless-steel, or **ECOSTORE®** fusion bonded epoxy tanks for a complete, long-lasting storage solution.

EVERDOME®

ALUMINUM GEODESIC DOMES & RESERVOIR COVERS

BENEFITS OF UIG **EVERDOME®** ALUMINUM GEODESIC DOMES & COVERS

UNMATCHED QUALITY:

- **COMMERCIAL-GRADE ALUMINUM:** Lightweight, corrosion-resistant, and built for long service life.
- **MAINTENANCE-FREE:** No coatings or re-coating required - won't rust or degrade like steel or fiberglass.
- **PROVEN DURABILITY:** Factory-tested to AWWA D108, API 650, and international standards.

VERSATILE & COST-EFFECTIVE:

- **WIDE APPLICATION RANGE:** Ideal for potable water, wastewater, and process storage.
- **CUSTOM DESIGN:** EVERDOME® offers a full line of high-quality accessories from ladders, to handrails, walkways, skylights, doors, dormers, hatches and connections.
- **FAST INSTALLATION:** Self-supporting design reduces field labor and construction time.
- **ODOR CONTROL & RETROFITS:** Precision fit for odor containment; easily installed on existing tanks.

INDUSTRY EXPERTISE:

- **CERTIFIED ENGINEERING:** Licensed in all 50 states and Canada with PE-stamped designs.
- **STANDARDS COMPLIANCE:** Meets AWWA, API, NSF/ANSI 61, NFPA and IBC codes.
- **PROVEN TRUST:** Over 55 years of reliable performance across thousands of installations.
