

EVERSTORE®

GLASS-FUSED-TO-STEEL BOLTED STORAGE TANKS

Innovative water storage solutions designed to last

UIG Tank Systems is a global leader in bolted tank technologies and sets the industry standard through innovation & execution.

UIG **EVERSTORE®** Glass-Fused-To-Steel tanks are created through the fusion of Titanium-Rich Steel (TRS™) with UIG's custom-made glass frits at 1600° F. This unique process forms a new chemically inert surface that is stronger than steel alone and highly resistant to corrosion, rust, abrasion and stains.

EVERSTORE® will never require painting or recoating. Pair with an **EVERDOME®** Aluminum Dome Cover for a virtually maintenance-free system with a 50+ year lifespan.

THE UIG TANK SYSTEMS DIFFERENCE

- ✓ **Expert Engineering:** In-house design for tanks, foundations, and piping systems.
- ✓ **Certified Construction:** Skilled UIG crews build with precision, speed, and quality.
- ✓ **Seamless Delivery:** Clear communication and oversight ensure on-time results.
- ✓ **Proven Reliability:** 55+ years of innovation, craftsmanship, & trusted performance.

INDUSTRIES EVERSTORE® SERVES

- **Municipal & Private Water**
- **Energy & Utilities**
- **Data Centers**
- **Defense & Infrastructure**
- **Food & Beverage**
- **Desalination Facilities**

EVERSTORE®

GLASS-FUSED-TO-STEEL BOLTED STORAGE TANKS

BENEFITS OF UIG EVERSTORE® GLASS-FUSED- TO-STEEL BOLTED TANKS

UNMATCHED QUALITY:

- **TITANIUM-RICH STEEL (TRS™):** Superior strength, flexibility, and adhesion - engineered specifically for Glass-Fused-To-Steel enameling.
- **FACTORY CUT OPENINGS:** Laser-cut openings and bolt holes ensure perfect fit and finish.
- **INNOVATIVE PLATE EDGES:** Rounded plate edges allow full glass encapsulation for maximum corrosion protection.
- **CUSTOM GLASS FRITS:** Tailored for pH 2-13 and available in multiple colors.
- **PRECISION ENAMELING:** Uniform, durable finish on all surfaces and edges.
- **PROVEN PERFORMANCE:** Every panel tested to AWWA D103 standards for long-term performance.

VERSATILE & COST-EFFECTIVE:

- **FAST INSTALLATION:** Bolted design enables quick, efficient on-site assembly.
- **LOW MAINTENANCE:** Glass-Fused-To-Steel provides lasting protection and long-term savings with no painting or recoating required.
- **MULTI-USE:** Ideal for water, wastewater and industrial storage.
- **SCALABLE DESIGN:** Modular construction allows easy expansion or relocation.

INDUSTRY EXPERTISE:

- **CERTIFIED ENGINEERING:** Licensed in all 50 states and Canada with PE-stamped designs and foundations.
- **STANDARDS COMPLIANCE:** Meets AWWA, API, NSF/ANSI 61, NFPA, IBC, and other major codes.
- **TRUSTED WORLDWIDE:** 55+ years of proven performance on thousands of installations.
