

AMERICAN MADE. BUILT TO PERFORM.

AMERICAN MADE & AIS COMPLIANT

SUPERIOR CORROSION PROTECTION

FAST PROJECT DELIVERY

LOW LIFE-CYCLE COST

ECOSTORE™ delivers the proven performance of fusion-bonded epoxy-coated bolted steel tanks — manufactured in the USA for today's critical infrastructure projects.

UNITED INDUSTRIES GROUP, INC.

BUILT ON EXPERIENCE.
ENGINEERED FOR WHAT'S NEXT.

THE ECOSTORE™ DIFFERENCE

ENGINEERED FOR SUPERIOR PERFORMANCE. BUILT FOR AMERICAN INFRASTRUCTURE.

AMERICAN MADE STEEL.

DESIGNED FOR DOMESTIC PROJECTS.

Manufactured in the USA using American steel. Engineered to meet AIS and Buy American Requirements.

ADVANCED FUSION-BONDED EPOXY.

FACTORY APPLIED.
ENGINEERED TO LAST.

A high-performance fusion-bonded epoxy coating system delivers enhanced corrosion protection throughout the tank's service life.

FAST PROJECT DELIVERY.

FACTORY-FINISHED PANELS.
EFFICIENT BOLTED ASSEMBLY.

Reduced fieldwork and faster installation help accelerate project completion.

TURNKEY PROJECT SIMPLICITY.

ONE PARTNER.
EVERY STEP OF THE WAY.

Engineering, manufacturing, certified installation, and aftermarket support.

Certified to NSF/ANSI 61

American Water Works Association

NFPA®

AWWA D103 Compliant

THE ECOSTORE™ ADVANTAGE

ECOSTORE AWWA D103 BOLTED TANKS	TRADITIONAL AWWA D100 WELDED TANKS
	
✓ **Factory Controlled Coating** Fusion-bonded epoxy applied under controlled conditions.	✗ **Field-Applied Coating** Application quality is subject to weather and site conditions.
✓ **Complete Floor Protection** Factory-coated floor panels protected on both sides.	✗ **Limited Floor Protection** Floor undersides often left uncoated and exposed to corrosion
✓ **50% Faster Installation** Efficient bolted assembly accelerates construction.	✗ **Longer Installation** Field welding and coating extend construction schedules.
✓ **Consistent Factory Quality** Precision manufacturing with rigorous QA/QC.	✗ **Variable Field Quality** Workmanship and conditions impact consistency.
✓ **Lower Installed Cost.** Reduced field labor and faster project completion.	✗ **Higher Installation Cost** Labor-intensive construction increases project costs.
✓ **Flexible Modular Design** Supports future expansion or relocation.	✗ **Permanent Welded Construction** Expansion and relocation are costly and complex.

For more than 57 years, UIG has delivered advanced storage infrastructure solutions for the world's most demanding applications. ECOSTORE™ epoxy-coated tanks are engineered and manufactured in the USA to provide enhanced corrosion protection, faster installation, and lower life-cycle costs—backed by a partner you can trust.

SINCE 1969

- POTABLE WATER
- WASTEWATER TREATMENT
- INDUSTRIAL & PROCESS
- FIRE PROTECTION
- DATA CENTERS
- FOOD & BEVERAGE
- BIOGAS & RNG
- MINING & LEACHATE
- DESALINATION & BRINE
- OIL & GAS UPSTREAM
